

The plug-in card

-  final size
-  3 mm bleed addition
-  3 mm safety distance. Please do not place important elements in this area.

LAYOUT - NOTICES

Final size = 210 x 54 mm
(grey colored area)

Bleed: 3 mm on all sides
(Bleed prevents white edges due to cutting tolerances)

Security distance = 3 mm
In paper processing, processing tolerances can not be avoided.
Please place important objects with a sufficient distance from the edge.

Data requirements:

- printable data
- pictures with minimum 300 dpi
- color space CMYK
- maximum 300% ink coverage

Please send data without cutting marks and without register marks

The address data needs to be integrated but may be changed to the customer's address.

PROTECTIVE LACQUER

One side of the »bookmark« is finished with a protective lacquer to avoid discoloration or scratches caused by the pencil. Typically the page where the pencil is placed is selected protective lacquered.
